OVERVIEW

Professional Summary

A technical lead, senior data scientist with a Ph.D. in Computer Science, specializing in Computer Vision, Image Processing, Machine Learning and Deep Learning solutions with a strong mathematical, data management, and analytics background. Published author with over 1000 citations, and technical reviewer for more than nine years. My experience brings invaluable insight into analyzing, processing, visualizing, and reporting meaningful decisions. A technical lead who performs and delegates multiple duties while motivating staff, making sound decisions, and working with stakeholders at all levels of responsibility. Extensive experience delivering technology products from conception to delivery while successfully allocating resources and timelines. I am a versatile researcher with a broad knowledge of programming languages, databases, and data structures. I have taught courses in computer science, programming languages, and advanced programming concepts for over ten years at the University Level.

Full-Stack Software Developer

Over 15 years of experience in software and web development. A developer who enjoys simplicity in design, creative code, innovation, with an eye for designing and developing Graphical User Interfaces. Encourages collaborative work environments, stimulates group creativity and promotes sharing of knowledge. Specialized in Computer Vision, Machine Learning, Deep Learning - Convolutional Neural Networks (i.e., LeNet, AlexNet, VGG, GoogleNet, and ResNets), Object Oriented Programming, Data Structures and Algorithms, and scripting solutions. Experienced in Python, C++, R, Java, Web technologies, SQL and NoSQL databases, DevOps, Kubernetes, and Containerization (i.e, Docker).

WORK EXPERIENCE

2020–Present
DScD, StatCan, Canada

Lead Data Scientist
Technical Lead of several projects under the Data Science Division / Product Delivery Section for clients such as Public Health Agency of Canada (PHAC), Health Canada (HC), and Statistics Canada (StatCan). Working on product delivery, achitecure, production planning, pipelines, data integration, ML modelling, deep learning, and cloud integration (i.e., Kubernetes and Microsoft Azure) for the following projects: Cyclops, COVID-19 PPE - EPI Model, Frontier Counts, SEDAR, and Hydra.

2016–2020
Tempo Analytics, Canada

Co-Founder, CTO, AI Research & Development
Architect, team technical lead, and full-stack software developer of a server-client application to deliver the speed of service time statistics for the Quick Service Industry. In charge of building Deep Learning Neural Networks (i.e., CNN, and RestNets) and Computer Vision solutions for customer detection, people re-identification, and metric learning. Creating and designing web tools to control the application's nodes features, and display analytics.

2010–2016 *University of Ottawa, Canada*	**Research Assistant, Computer Vision Software Developer** Responsible for writing research papers, presenting research findings, and develop computer vision and machine learning software to test and validate the results. Research on shape analysis, object detection and tracking solutions for augmented reality, robot localization, and surveillance applications.
2011–2012 *Proximify*	**Senior Web Developer** Design and development of a javascript engine powering UniWeb and CCV Sync. Proximify is a web-based software for academic institutions and grant agencies. Envisioning and building a research network tool for creating and maintaining your Canadian Common CVs.
2010–2011 *Dalen Design*	**Web Developer** Development and maintenance of the e-commerce website: Hot Tub Covers Canada. Processing electronic payments, showcasing products, accessories, descriptions, managing reviews and comments.
2009–2010 *Hegyi Geomatics international Inc*	**Software Developer** Design and development of tools for the forest industry. Image analysis of forest stands using high resolution and Landsat imagery (Java, and C++).
2008–2010 *University of Ottawa, Canada*	**Research Assistant, Computer Vision Software Developer** Responsible for writing research papers, presenting research findings, and develop computer vision software to test and validate the results. Research on image processing techniques to extract relevant features from images.
2006–2008 *Navaera USA LLC*	**Software Developer** Creating a web crawler and multi-platform tools for automatic clustering of documents from the web based on their content and metadata (Java, C#, and Python).
2006–2008 *University of Havana, Cuba*	**Network Administrator, Software Developer** IT Team leader for the main building of the University of Havana. Design, development, and validation of network administration tools for user monitoring, domain login, email access, and internet quota management. Provided network support and IT services.

EDUCATION

2010-2016 *University of Ottawa, Canada*	**Doctor of Philosophy in Computer Science** GPA: 10.0/10.0 Thesis: *Efficient Feature extraction for Shape Analysis, Object Detection and Tracking* Robust feature representations to aid shape analysis, object detection and tracking. **Supervisors**: Prof. Jochen Lang & Prof. Robert Laganière
2009-2010 *University of Ottawa, Canada*	**Master of Computer Science** GPA: 10.0/10.0 Thesis: *Towards Feature Detection based on Morphology of Objects on Images* Extracting lines and corners from images based on the morphology of objects. **Supervisor**: Prof. Amiya Nayak
2001-2006 *University of Havana, Cuba*	**Bachelor of Computer Science** GPA: 4.56/5.0 (magna cum laude) Thesis: *Diskless Cluster: Parallel and Distributed Systems* Bootable Cluster LiveCD based on Debian GNU/Linux distribution. **Supervisor**: Prof. Joel de la Noval

LICENSES & CERTIFICATIONS

Coursera	Deep Learning Specialization	Cred ID: G8YPRSBRUR4X
2019	Structuring Machine Learning Projects	Cred ID: 5D9RY2485Z4G
	Sequence Models	Cred ID: GCJHGKVL6ZLL
	ConvNN (i.e., LeNet, AlexNet, GoogleNet, VGG, ResNets)	Cred ID: NQNLA6AYQ7NM
	Neural Networks and Deep Learning	Cred ID: XJPXEXXMSB8K
	Hyperparameter tuning, Regularization and Optimization	Cred ID: XFSWVLMMR4KM

PATTENTS

2017 *Tempo Analytics*	System and method for gathering data related to quality of service in a customer service environment. CA 3014365 — PCT/CA2017/050849 — WO2019/010557.

TEACHING EXPERIENCE

2009 – 2015 *University of Ottawa*	Programming Paradigms. (CSI2120),	Winter 20{15 | 11}.
	Operative Systems (CSI 3131),	Summer 2015.
	Advanced Programming Concepts in C++{11} (CSI 2372).	Fall 20{14 | 12 | 10}.
	Introduction to Computing I & II (ITI 11{20 | 21} - Python),	Fall 2015.
	Introduction to Computing I & II (ITI 11{20 | 21} - Java),	Winter 20{14 | 13}.
	Computing Concepts for Business (CSI1306).	Fall 2009.
2006 – 2008 *University of Havana*	Network Administration in GNU/Linux,	Fall 200{7 | 8}
	Object Oriented Programming with Java and C#,	Summer 200{8 | 7}.
	SQL and Relational Database Model Concepts,	Fall 2005

SKILLS & EXPERTISE

Expertise	Agile Management · Computer Vision · Image Processing · Machine Learning Data Structure & Algorithms · Object-Oriented Programming · RDMS (i.e., MSQL, MySQL, Postgres, and SQLite) · Non-SQL · Networking · Cloud Deployment · Containerization · Web Development/Design · e-Commerce · GIS · MVC
Markup and Programming Languages	C++ · C · Python · Java · C# · PHP · R · Matlab · JavaScript · Prolog · Perl · Bash · HTML 5 · XML · CSS 3
Software Development Tools	OpenCV · Microsoft Azure · Kubernetes · Docker · Visual Studio · Xcode · Jupiter Labs · Docker Images · Git · SVN · make · jQuery · LaTeX · Adobe Photoshop · Adobe Illustrator · Adobe Lightroom · Adobe Dreamweaver · OpenOffice · Microsoft Office Tools

HONORS & AWARDS

2019	Best Exterior Photo, First Place, Doors Opens/Portes Ouvertes by City of Ottawa
2019	Grand Prize Winner, Canada in One City Photo Contest by @Ottawatourism
2019	Grand Prize Photography Award, Ottawa in Bloom Contest by @Ottawatourism
2018	Professional Diploma in Photography (Shawacademy EQF Level 5).
2016	NSERC Engage Grant Program with Ross Video.
2015	Best real-time tracking method VOT Challenge 2015, Chile
2015	NSERC Engage Grant Program with Thales Canada.
2014	NSERC Engage Grant Program with You.i labs.
2012	NSERC Engage Grant Program with Cohort Systems Inc.
2011	NSERC CRD Grant with Pulse Microsystems Ltd.
2010	International Admission Scholarship from University of Ottawa.
2010	Ontario Centres of Excellence Grant with Hegyi Geomatics International Inc. Project: "Green Earth (GIS)".
2009	Excellence Scholarship from University of Ottawa.
2009	Ontario Centres of Excellence Grant with Hegyi Geomatics International Inc. Project: "Green Earth (GIS)".
2009	MITACS Accelerate Internship Program for graduate and postdoctoral fellows. Project: "Advanced Tools for Forest Inventory and Management".
2006	Magma cum laude graduate as Bachelor in Computer Science
